John 15:5

I am the vine, ye are the branches...for without me ye can do nothing.

Thank you for the continued prayer and monetary support each month.

March 15th was the last time Bullet Tree Baptist met as a church family for service before many regulations went into effect due the Covid-19 pandemic. On June 14th, it was a great joy to see everyone arriving...some walked, one family drove from a nearby village, and others arrived by the church van. With us practicing social distancing to the best of our ability, the church was filled with many smiles. The children did great with sitting in class, considering they had not been in school for almost 3 months. We had a great time of fellowship and worship.

A month later, we had our first Family Night after social distancing was not required to be practiced while attending church. About 20 minutes into the service, a father and son arrived and remained in the back of the church. After Junior finished preaching, the father approached him and stated that he needed to talk. As the conversation continued, a clear and vivid gospel presentation was explained. The father and son bowed their heads, asked the Lord to forgive them, to be the Lord of their life's, and to save them. We praise the Lord for sending them our way. Thank you to everyone that has prayed for us and our people, as we continue to see God work during these times.

As the world launches into a new schooling norm, Belize is also in the process of adjusting to how school will move forward. School was scheduled to open on August 10th, however the Ministry of Education decided to delay the reopening. As the children wait, Bullet Tree Baptist is in the process of converting a previous structure on the church grounds into a learning center. We are unsure, at this time, if the children will have the opportunity to attend school in person anytime soon. If virtual classes become the reality, could parents have a decision to make, online classes or no school at all? When many of our church kids don't have internet, a computer, or perhaps no electricity...the reality could be "no school". We believe every child should have the same opportunity to an education. With the learning center available, our church kids can further their education through this ministry outreach.
